

The background of the entire page is a dark, blue-tinted photograph of a vehicle's interior. In the center, a laptop is mounted on a dashboard, displaying a map. To the left of the laptop, a radio is visible. The steering wheel is partially visible on the left side. The overall atmosphere is professional and technological.

FREE WORKSHEET

Vehicle Upfit **Planning** **Worksheet**

Capture the assignment, the platform, the equipment and the power plan on two pages, before anyone writes a quote.

HOW TO USE THIS WORKSHEET

Fill in what you know and leave the rest blank. A half-finished worksheet is still a better starting point than an equipment list copied from the last vehicle. Bring it to your planning meeting, or [send it to us](#).

Next step: send this worksheet, even partly filled in, to info@freedomsignal.us or bring it to a conversation at freedomsignal.us/contact.

Bring us the vehicle. Or just the problem.

You don't need a finished equipment list to start. Tell us the assignment, the platform and the outcome you need, and we'll work forward from there. Our team includes active law-enforcement, fire, EMS and emergency-services personnel, so the conversation starts with how the vehicle is really used.
